
KAB - AMORE

NEW MUSIC VIDEO OUT NOW :
<https://youtu.be/wVlSh10-OJQ>

KAB mixes punchy beats, angry horns and ravishing synths gimmicks : after remixing C2C or Burning House, they released their first EP in 2014 then a second one in 2016 under the french label Le Sofa. On stage, seven musicians deliver an explosive electronic live show of a new kind. They mix the sweet melodies of their singer with processed vocals in a "french touch" way, creating a symbiosis between computers and hijacked acoustic instruments.
